Reusable lunch bag set

## why it matters

Packing your lunch in disposable plastic baggies is an easy habit with long term consequences. They leach chemicals into your food and can't be recycled when soiled. Trashed baggies fill landfills, litter roadsides, and take hundreds of years to degrade while releasing toxins into the groundwater, rivers and seas.

## use and care

---

Wash by hand or in the top rack of the dishwasher.

Got crumbs? Turn the bag inside out & wipe with a clean cloth.

To remove stains, use a baking soda wash & a natural fiber brush.

Air dry completely. Use a wooden bag drying rack to shorten drying time.
